Ten-Minute CBT

University of Toronto *DFCM*

- This is the most practical psychiatry CME I have ever attended
- Great workshop
- Engaging & entertaining
- Love the interactive format... very approachable
- Excellent because it applies to both the psychiatric and non-psychiatric medical issues
- Most relevant
- Definitely more practical than other psychiatric CME
- One of the best workshops I've ever attended
- The concepts were explained in a very entertaining way
- Much better and more applicable to general practice settings than other psychiatric CME
- Very informative and interactive
- Very knowledgeable speaker

What family physicians say (*continued*) ...

- Excellent material and speaker
- I would be less burned-out if I had had this training in medical school
- Very helpful
- Applicable to different a wide range of medical and social issues
- 10 + presentation style... awesome / dynamic
- Excellent slides & great use of humor
- Very practical tools and examples provided... Really enjoyed it! It would have been very helpful to have had this back in my medical school days
- Very informative and focused
- This will make me more effective and efficient in clinical practice
- Helps to avoid burnout and compassion fatigue... Excellent workshop ...better and more practical than most psychiatric CME
- Focused to 10 minutes... Very practical
- Incredibly helpful
- Much more practical & interactive & engaging than other psychiatric CME
- If I had had this earlier I would have more job satisfaction today
- Excellent
- Very beneficial
- Loved it!
- Very different from any other continuing medical education
- Very interactive and informal... Great
- Excellent
- Better than other psychiatric CME
- Very knowledgeable
- Very valuable
- A great workshop
