Introduction to Medical CBT

University of Alberta RAN Residency Program

- Practice-changing
- Very family medicine orientated. Simplified tools; very helpful
- Extremely important training for family physicians
- Useful and informative presentation. It was definitely worth taking a day off from the clinic.
- Very, very important
- Medical CBT training is crucial for family physicians
- Invaluable
- I feel like it is extremely important
- Vital... should be applied to most visits
- Truly informative
- Evidence based & well-rounded speaker

What family physicians say (*continued*) ...

- Very very important
- Valuable daily
- Super relevant
- Excellent presentation style
- Very practical for family practice
- Engaging & knowledgeable
- Of paramount importance for family physicians
- Engaging & well-versed
- Excellent
- Energetic
- SO SO PRACTICAL!!
- Excellent, entertaining, engaging
- Wonderful work!
- Great workshop. Entertaining presenter. Good handouts.
- Very entertaining... I really enjoyed the day
- I think this accounts probably for 75-80% of our work, no matter what patients condition
- Very engaging
- Concrete skills
- Geared towards short family medicine visits
- Important skills to have to deal with common, frustrating, mentally-draining scenarios
- Energetic & passionate
- Very useful & relevant
- Extremely important for family physicians
- Excellent presentation! Very relevant & helpful.
- Very worthwhile
- Enjoyed the jokes
- Highly relevant
- Very knowledgeable
- Amazing!
- Very, very important... invaluable
- I can't think of any way to improve this excellent workshop
